COMPREHENSIVE PROJECT DESCRIPTION

Describe how the education/training is 9-1-1 and/or GIS specific and how it will benefit the employees and/or PSAP.

King William Sheriff's Office plans to utilize the PSAP Education Grant to foster and advance 911 education for our communications officers. Training and education are essential elements to achieve and maintain the knowledge needed in the continually evolving world of 911 technology.

King William will be sending at least two staff members to the Fall 2019 Virginia APCO/NENA/Interoperability Conference in Roanoke as well as two staff members to the Spring 2020 APCO/NENA Conference in Virginia Beach.

All classes are geared towards public safety communications. Most are taught by employees who are still working in the same field. A lot is learned by the sharing of experiences through others which is a great benefit in the public safety communications field.

EVALUATION

Describe the evaluation process to determine if participation in this 9-1-1/GIS education/training benefited the employees and/or PSAP.

King William does not have a detailed evaluation process. We are able to determine participation benefits by the knowledge and information that the attendees brings back to our agency and shares with the communications officers that were not able to attend the education/training. Notes are reviewed as well as concepts and ideas.
